OUR RANGE OF PRODUCTS

PLEATED MESH SYSTEMS

Horizontal sideways movement of Pleated mesh is a cost effective insect protection systems for windows and doors. The mesh operates on polyester and strong thread with filament core on tension based technology. Ideal for large windows with strong wind pressure.

High quality range of our Pleated Mesh Systems are extensively used in Upvc, Aluminium & Wood Windows and Doors offer protection against all types of insects like mosquito (dengue) and protect you from these unnecessary interventions.

Roll Down Mesh Systems:

Smart Screens Roller Mesh Systems protect you from these unnecessary interventions. We design insect screens which keep flying pest out while allowing fresh air to circulate around the rooms. That's not all; SMART SCREENS Systems also filter pollution such as tiny dust particles.

This System is manufactured with spring loaded mechanism and Fiber Glass Net. The system is more economical than wooden shutters. It ensures Clear visibility, Better ventilation, Space saving and Easy to Maintenance. The Roll Down Mesh System is very easy to install and can be adopted to Wooden, Aluminium & Upvc Frames.

Velcro Mesh Systems:

High quality range of our Velcro Mesh Systems protect you from these unnecessary interventions we design insect screens which keep flying pest out while allowing fresh air to circulate around the rooms. That's not all; SMART SCREENS Systems also filter pollution such as tiny dust particles. This helps in protecting 100% mosquitoes and simultaneously enhances the aesthetic look of windows. These Mosquito Screens Systems (Velcro Mesh) are very easy to install and can be adopted to Wooden, Aluminium and Upvc Frames.

Stainless Steel 304 Wire Mesh Roll:

Jai Netting Systems is the manufacturers and the suppliers of an excellent quality of Stainless Steel 304 Wire Mesh which has been made using the best quality of raw materials which have been procured from well known vendors in the industry. Our products have been made using the best technology available in the market and they are non-corrosive in nature. Our stainless steel wire meshes have excellent design and supreme finishing made from top 304 grade stainless steel materials. These stainless steel wire meshes are very easy to install and provide excellent stability, durability, corrosion & abrasion resistance and high tensile strength. Our stainless steel 304 wire meshes are very reliable and highly efficient made to last for long time. Avail from us wide range of stainless steel wire meshes at reasonable and affordable prices.
